

BIG DOUBLE BILL
AT THE GRECIAN

Chas. Ray in "The Son of His Father" and "El Paso of Five Years Ago."

As a special anniversary program the Grecian theater offers an exceptional double program consisting of a new Thomas H. Ince feature, "The Son of His Father," with Charles Ray and the Grecian special film showing 51 years of film years ago.

Charles Ray is seen as a reckless but lovable youth in his newest play, in which he is in his happiest element. The picture is one of quick action and many thrills, as well as much of genuine human interest that has created such a big following for Ray.

The added attraction is a film which was made in El Paso five years ago. It will be interesting to all El Pasoans to see how things have changed in five years and take a glimpse into the past. Many of the young men and women of El Paso will see themselves in this picture as others saw them five years ago. If it shows some remarkably good views of El Paso and the surrounding country, it is reading this may be among them. There are views of the business and pleasure districts, the river, the government and many other things of interest.

This is truly an exceptional program and one that every El Pasoan should see by all means. The entire program lasts about an hour and thirty minutes; the first show is at 1 o'clock, the price of admission is 25 cents for adults and 15 cents for children.—Adm.

ALHAMBRA—SENSEE HAYAKAWA.
 Today's attraction at the Alhambra is Sensee Hayakawa in a special act on the Japanese stage Hashidura To go. This photoplay created so much favorable comment when it was here

before it at the request of disappointed viewers we have arranged a special trip to give everybody a chance to see this delightful Paramount comedy-drama. It is a drama of a Japanese "School Boy." It is full of amusing, ridiculous and dramatic scenes. It is a comedy of the "very" wacky, through the action, concerning one tiny Ooto San walking home from school one day, and his return for Hashimura's return. In the meantime we follow on the green Hashimura's return, and his return to his home in the land of the "Hon. Green Hashimura." A thousand prices are

It is said to be a scream. Coming Saturday, "The Fighting Trail." Sunday, there will be a special bill (Clara Kimball Young in a clever release, and "Fatty" Arbuckle in "The Butcher Boy.")

BEGINNING FRIDAY we introduce to the kiddies and grown-ups of El Paso and the great Southwest the most complete and the largest Doll, Toy and Gift Department in the city. In our newly completed "TOYLAND" you will find every toy that the human mind has conceived or which the artistic hand of a master toy-maker has made. The European War does not affect our gigantic showing of new Toys, Dolls and Gifts in the least. Articles formerly made in Germany and allied nations now come from the Orient and other parts of the world. The prices are extremely moderate when one takes into consideration the world-wide conditions now existing. We invite every mother and every child to visit "TOYLAND" tomorrow. Of course, Father, Big Brother and Sister should come too. Please come to see and bring the kiddies.

Furniture

We show a most complete display of Children's Toy Furniture in all white and fancy trimmed pieces and sets. We call attention to the chairs, buffets, chiffoniers, high chairs for dolls, doll beds, wardrobes, desks and dozens of other play furnishings for little girls and boys. You'll be surprised how well made the articles are and the lowness in price.

CAMMILLO FRANCESCHI FENZI, landscape gardener, of Santa Barbara, California, has drawn the above plan for Castle Heights park at El Paso. On the lower left side there are to be the tennis courts, baseball grounds, etc., for the older boys. Above this, on the knoll, there is to be the bandstand, up to which there will be a certain number of terraces from the playgrounds. On the next knoll on the right of the bandstand there is to be an artificial lake and reservoir, whose water will take care of irrigating practically all of the park. On the next knoll to the right of the lake there are to be planted trees with grass underneath and it is to be used as playgrounds for small children. On the knoll still to the right, as it is small and near one of the drive entrances, there is to be a stretch of grass with a statue of some worthy El Pasoan or some hero of national note. There is a drive that runs through the park from one end to the other, also many walks to take care of pedestrians.
